

NODO DE LA BIOREGIÓN ACONCAGUA  
UN MUNDO MÁS ALLÁ DE LA GUERRA  
WORLDBEYONDWAR.org

un movimiento global para terminar todas las guerras

We report that the year 2022 was prolific in activities where our community in Laguna Verde was involved in peace, creative and consciousness raising activities and our great community Mother the Caravan for Peace and the Restoration of Mother Earth was also very active.

We went with our community to the call made by the Wirrarika people to erect mirror altars, while many pilgrims went to the desert of Wirikuta in Mexico. An event to which we attribute the significance of being a moment of renewal of the world".

Here we are celebrating with our friends on Kirtan Day, which has been convened by Kamal in collaboration with the Caravan Community for Peace and the Restoration of Mother Earth.

In February 2022, we made a human flag of peace in the Ex-jail Cultural Park of Valparaiso.

This photo shows a moment in which we celebrate the will to "strengthen our community", next to the flag of Peace adopted by the American Nations in the Roerich Pact.

## WISDOM DIALOGUE MOVEMENT

Join a Global Movement informed by Silence and sourced out of  
Wisdom, Love in Action

Share this Event

We were invited to a dialogue of wisdom that brought together indigenous leaders and activists from around the world. We have had the opportunity to mention the possibility of the alliance of this collective that proposes dialogues in which silence is honored, so that we have the capacity to greatly value what we want to communicate with World beyond war.

We support from the Communications group the celebration of CASA Latina's 10th anniversary.

## Perspectives

We have started the year in a very auspicious way since we have received funding for three objectives:

To conduct a study that will allow us to understand who are the local actors who put their energy at the service of peace and the transformation of the world, towards a conscious society where the scourge of war is eradicated. Articulate our bioregional node including world beyond war, global ecovillage network, transition movement and earth wisdom dialogue plus the indigenous wisdom rescue movements.

To strengthen our community of the people who live in Laguna Verde and surrounding areas.
